

### Organization Overview

For more than 90 years, VisionCorps has been helping restore autonomy and independence to the lives of Pennsylvania residents who are blind or vision impaired. From education and prevention, to rehabilitation and employment, we take a comprehensive approach to services. VisionCorps currently has a presence in Lancaster, Lebanon, Berks, Chester, Cumberland and Philadelphia counties.

70% of working-age Americans who are blind are not employed, despite being dedicated, highly skilled and educated individuals. So, many years ago, we formed the VisionCorps Enterprise Group to provide employment opportunities for people who are blind or vision impaired.

VisionCorps Enterprise Group provides its partners with access to federal contracting opportunities through the federal government's AbilityOne Program, the largest source of employment for people who are blind or have significant disabilities. To secure and maintain government contracts through the AbilityOne® Program, at least 75% of VisionCorps' direct labor must be performed by people who are blind.

### The AbilityOne Program

The AbilityOne Program is among the nation's largest providers of jobs for people who are blind or have significant disabilities. Today, the AbilityOne Program provides employment opportunities to more than 45,000 people who are blind or have significant disabilities, including approximately 3,000 veterans. The AbilityOne Program uses the purchasing power of the federal government to buy products and services from participating, community-based nonprofit agencies nationwide, dedicated to training and providing rewarding careers to individuals who are blind or have significant disabilities. Through the AbilityOne Program, people who are blind or have significant disabilities enjoy full participation in their community and can leverage their newly learned skills into other public and private sector jobs.

The AbilityOne Program is authorized by the Javits-Wagner-O'Day Act, the Code of Federal Regulations (CFR), and the Federal Acquisition Regulation (FAR).

### Core Capabilities

## Past Performance

- Defense Logistics Agency, Troop Support:** VisionCorps' Enterprise Group manufactures the Army Combat Helmet suspension pad system in 3/4" and 1" diameters. Each system includes one circular crown, two trapezoidal and four oblong/oval pads that are placed into the warfighters Advanced Combat Helmet (ACH).
- Federal Bureau Of Prisons, Various Locations:** Utilizing state of the art equipment, our team performs contract liquid filling services for industrial and bio-based cleaning products supplied to federal prison facilities throughout the United States.
- Defense Logistics Agency, Troop Support:** Strictly adhering to military specifications, our team manufactures the foliage green (504) four point chin strap as a retention system, designed to comfortably secure the Advanced Combat Helmet (ACH) to the warfighters head.
- Defense Logistics Agency, Land and Maritime:** Strictly adhering to Military Specification: MIL-W-43668, our staff manufactures the natural, olive drab, camouflage green (483) and black (375) looped webbing textile bulked sling, that mounts to the underside of the M4 carbine. This sling maximizes the warfighters effectiveness when carrying the weapon or steadying the weapon for firing.
- Defense Logistics Agency, Troop Support:** Strictly adhering to military specification: MIL-N-87043, our staff manufactures the 36"x36" square, black, acetate twill woven cloth neckerchief. The neckerchief is currently worn as part of the uniform for Navy enlisted personnel with the rank of Petty Officer First Class and below.

## Featured Partners & Suppliers

VisionCorps' Enterprise Group has a long track record of providing contract manufacturing services to defense contractors, government agencies and private industry. Our services include product manufacturing, assembly and liquid filling services. By outsourcing to our Enterprise Group, our partners benefit from reduced production bottlenecks, reduced payroll and benefits costs, and lower operating capital requirements. We also offer predictable, fixed-cost pricing, fast quotes and quality work, delivered on time.
